

ANNOUNCEMENTS

GLOC Presents Balance Point, a seminar with Linda Koutsky: For more information and registration form, see page 6 of the Barker.

Obedience Show-N-Gos: Scheduled the third Friday evening of every month, the GLOC hosts Obedience Show-N-Gos. At a cost of \$6 for the first run of each dog entered (subsequent runs are \$4), competing at or helping with a Show-N-Go is a good way to familiarize yourself with the rules of obedience competition, to help out the club, and to have fun with other dog people. The next will be held August 17. For more information or to volunteer to help, call or email Georgia at 261-4239 or gdavis2@neb.rr.com. Registrations start at 6:30 p.m. with actual runs starting at 7:00 p.m.

Fall Obedience Trial: Raffle! Georgia Davis is running this year's raffle at the GLOC fall obedience trial. She needs donations of prizes—new or gently used dog-related items do especially well. Call her at 261-4239 or email her at gdavis2@neb.rr.com.

Want to Teach Classes? Marcy Graybill, Training Director, would like anyone interested in teaching classes or assisting with classes to contact her. Her phone number is 402-742-9015. Her email is mjgraybill@inebraska.com. Not sure if you want to instruct? Try assisting. Assistants are needed especially now as our classes are getting larger. Questions? Call or email Marcy for more information.

GLOC Fall Trials: The GLOC AKC Fall Obedience and Agility Trials will be held the first weekend in October at the Lancaster County Events Center. Volunteers are needed to steward in both the obedience and agility rings. We can always use extra hands to make both events run more smoothly. Call Janet Ball at 416-5540 to assist with obedience or Marcy Graybill at 742-9015 to help out with agility. All ages, all sizes, all abilities welcome!

The Barker is the official newsletter of the Greater Lincoln Obedience Club. The editor is Alicia Graybill. The deadline is the 15th of each month. Submit articles, photos, comments and suggestions to glocbarker@gmail.com or call 261-3532.

**Minutes: GLOC Board Meeting
August 2, 2007**

Attending: Georgia Davis, Judy Vitamvas, Jennifer Brown, Staci Sullivan, Janet Ball, Nancy Bowen, Cheryl Griffith, Jayne Seby, Elbert Traylor, Mary Schweitzer.

Meeting called to order at 6:00 pm.

Minutes of the June 2007 Board meeting were approved.

Minutes of the July 2007 Board meeting were approved.

Reminder that the Barker deadline is the 15th of the month. Send submissions to Alicia Graybill.

Treasurer's Report: Presented elsewhere in the Barker. Jayne Seby requested making a short-term "loan" of \$4,000 from the GLOC money market account until income from the fall trials and classes comes in. Vince Kamrath confirmed that this is a standard practice for this time of year. Jayne also suggested taking \$10,000 out of the money market and purchasing a new C.D.

Discussion was held on budget methods to use to maintain sufficient liquid funds to cover expenses between income-producing trials. The Board voted to maintain the current rates of \$300 (individual) and \$500 (family) for the activity passes. This program has been very successful for the club and the members.

Correspondence: Cheryl Griffith reported on sending a condolence card to Elbert Traylor on the loss of Augie. She will also send a card to Kathy Zupancic on her very recent loss of Jasmine.

COMMITTEE REPORTS

Agility: Cheryl Griffith reported progress being made on getting the equipment up-to-date and painted. Noelie Sherdan has premiums out and flyers were available for the Qwest Center trial in Omaha. The spring 2008 trial has been rescheduled to the 3rd weekend in May. The fall 2007 trial is scheduled for October 5, 6, and 7. Jennifer Brown reports that everything is on track and she is looking for volunteer commitments. GLOC will once again be hosting the obedience and agility competitions at the county fair on August 5.

Awards: No report.

Building: Elbert Traylor pointed out the addition of several breed flags that were installed on the walls. Janet Ball volunteered to talk to the landlord again about installing insulation on the overhead water pipes to keep them from sweating and dripping. She also pointed out the clutter on the front desk. It was suggested that a vacuum be stationed in each ring. Thanks will be extended to the Cornhusker Kennel Club for the donation of a wet-dry vacuum for the building.

Fall Obedience Trial: Janet Ball reported that obedience prizes were not listed in the premium. The list will be included in the catalog and on the Onofrio web site.

Public Relations: Cheryl reported that we should be hearing soon about the dates and plans for the December Star City Parade.

Training: No report.

Flyball: Staci reported that there is nothing new at this time from flyball. The inquiry from a team looking into renting the building has produced no reservations for the building.

OLD BUSINESS

Matting: Janet reported that two truckloads of mats have been obtained from Goodyear. We are close to having enough mats to cover the agility area of the building. Elbert is organizing a mat-washing event for August 11 and 12 and needs volunteers.

UKC trial from January 2007: Janet Ball inquired about the status of our follow-up on problems with the winter UKC trial. Jayne Seby reported that she has not received any correspondence from the UKC regarding this matter. Jayne volunteered to contact the UKC and make inquiries.

NEW BUSINESS

Seminar: Jill Morstad has requested Board approval for offering a training seminar on Sept. 29 and 30th. The motion was made and approved.

Membership Drive: Janet proposed holding a membership drive and offering a prize to the person who brings in the most new members. Between now and the end of November, the person

who recruits the most new members (minimum of three) will receive a 2008 membership absolutely free. The proposal was approved by the Board.

Show-n-Go Schedule:

August 17, 2007 Obedience – Elbert Traylor will chair.

August 24, 2007 Agility – Cancelled until after Jan. 1, 2008

BRAGS

So far, 2007 has been another good year for Roxie (8 year old Labrador). She and handler Kathleen Wingard have earned their 47th agility title to date. In 2007, they completed their U-ACH (UKC), Level 4 Strategy, Handler, and Fun Games (CPE), and Novice Fast Preferred (AKC) titles. -Submitted by Kathleen Wingard

Do you have a brag or a new puppy? Send information to the editor (glocbarker@gmail.com) by the 15th of each month. Be sure to include the dog's registered name, accomplishment, date and show (if necessary), and who is submitting the brag. Pictures are welcome!

Dear GLOC members,

It has come to my attention that there have been some problems with aggressive dogs in classes. Please remember to **WATCH** your dog! Please make sure that **ALL** dogs are on a leash and the leash is in your hand. The only time that a dog should be loose is when it is actually running an agility course or doing an obedience off-leash exercise. Dog owners are responsible for our own dogs. Please make sure to keep your dog under control at all times.

In this hot weather, everyone gets grumpy including dogs. Be aware of your dog at all times and don't give them the opportunity to hurt someone else's dog. Please call me (416-5540) if you have any questions. Thank you,

Janet Ball, President

Balance Point with Linda Koutsky: a GLOC Seminar

THIS IS A WORKING SEMINAR. Saturday: Foundation work and attention (workbooks with handouts will be included). Sunday: More on foundation/attention, and then progress to pure problem solving in Novice, Open or Utility work. Topics on day one include:

- Using a Balanced approach in training to close the gap between practice and performance (i.e. how to get ring carryover).
- Handler Criteria: What will you do with your 200 points?
- Games to develop drive, speed, and attitude. How to become the center of your dog’s world and the motivating force behind his work. (This includes group work sessions.)
- The proper use of food; how to use it and not abuse it.
- Rewarding “effort” vs. rewarding “behavior” – a new twist on reinforcement training.
- An understanding of how to use compulsion to get behavior and build drive.
- Creative Compulsion: a game based method that will allow you to build your dog’s WANT to work while correcting any lack of effort error that may occur. (Group work sessions.)
- Hands On! How to physically touch, mold; help your dog to be right! (Group work sessions.)
- Body Awareness: Teaching the dog how to use its body for accurate heelwork, fronts and finishes. (Group work sessions.)
- Attention: From puppy nibble heeling to the finished competitive product. Using food, hands on, and proofing to achieve results. This is a complete attention program focused on “moving” attention. This program includes ideas for trainers with dogs who do not like food. (Group work sessions.)
- The elements of competitive heelwork
- Speed: How to get it and keep it.
- The truth about stays: putting responsibility on the dog instead of pressure.
- Flashsessions: short, highly motivational sessions that anyone can do!

Areas of special interest will be those required to develop a confident working team. The teaching of **Attention** will play a key role, as will drills designed to increase the dog’s body awareness. Proofing techniques will be used to increase confidence and to reduce ring stress. The use of food will be covered in great detail. Teaching will include an understanding of the lure, reward, and random reinforcement stages, as well as an understanding of the pitfalls of food usage and how to avoid them. Discussion will include moving beyond Operant Conditioning as we focus on the “cognitive” dog. Hands on play techniques will be taught to enable the handler to become the motivating force behind the dog’s work. The proper use of “anger free” corrections that motivate and build the dog’s attitude will be taught.

When: September 29 -30, 2007

Location: **Greater Lincoln Obedience Club building**, (Confirmation and map to follow)

Seminar hours: **Saturday – 9:00 a.m. to 5:00 p.m.**

How to Avoid or Break up a Dog Fight

Obviously, most people want to avoid dog fights, but unfortunately sometimes they happen. The most important key to keeping your dog from entering into a dog fight is to be aware of what your dog is telling you.

Dog fights start most often with simple body postures that the owner can learn to recognize and interrupt. Fixed staring [Fig. 1], a stiff posture [Fig. 2], and an 'offensive pucker' [Fig. 3] are all signs a dog may be preparing to attack or challenge another dog. If you notice your dog (or someone else's) showing signs of imminent aggression, remember to breathe! Call the dog away from the situation, ask for a command the dog can easily perform or walk away—remove the dog from the situation. “[When approaching another dog] humans will hold their breath and round their eyes and mouths in an ‘on alert’ expression. Since these behaviors are expressions of offensive aggression in canine culture, I suspect that the humans are unwittingly signaling tension” (McConnell 34).

Figure 1

Figure 2

Figure 3 – Notice the dog's mouth is pulled forward

Though leashes can sometimes trigger an attack they are a handler's best friend. Just keeping the dog under physical control and occupied with tricks, or basic commands can prevent a huge amount of pain. When leashes create the most problems are when owners allow the dog to pull at the end of the leash toward another dog. Some dogs are more likely to appear aggressive due to their comfort in being restrained away from the target dog, as Carol Benjamin says “Like a held back drunk who says, 'Let me go and I'll rip him to pieces’” (76.) Pulling up hard on the leash also causes the dog to raise his head, appearing more dominant. In many dogs, it increases their frustration levels. As advocated by many trainers teaching bite work, restraining the dog **will** increase the dogs' agitation and increase their drive to bite. In this situation, the best solution is to move sideways away from the approaching dog. If your dog is the one pulling, turn and go the opposite way and get your dog to focus on you instead of the other dog.

What happens when you are caught off guard and two dogs have begun to fight? As difficult as it is, remain calm. Yelling or screaming at the dogs only increases the tension and possibly the severity of the aggression. Be very aware that aggression begets aggression. Using force when your dog is showing signs of hostility only increases the likelihood of the dog reacting to what he perceives as an attack. "Striking any dog, aggressive or otherwise, with . . . an object--especially in the 'face"--is abuse, nothing less. . . . Also, do it with the wrong dog--or, I should say the right one--and the animal may see to it that the practitioner winds up nicknamed Lefty!" (McMains 78)

Another method often suggested break up a dog fight is using a shock collar. But again this may only increase the dogs' aggression. Not knowing where the pain is coming from they may inflict worse damage on the other dog or react by biting a nearby human. "People talk about using cattle prods or shock collars to break up 2 [dogs] that fight. I can tell you that many times this is not going to work. The electric cattle prod or electric collar will only put the dogs into higher fight drive. When they are shocked they will turn and bite the prod, or when they are shocked they will think the other dog is

causing the pain and they will fight harder. An electric collar is best used in conditioning training, but not during an actual dogfight." (Frawley, <http://leerburg.com/dogfight.htm>)

If both of the dogs are on leash, then by all means pull the dogs apart, but be very aware that if one dog has latched or locked on to another dog pulling will only increase the damage done to the dog which is being bitten. In this situation, you are better off not pulling on the leashes, instead your goal will be to get the dog to release its bite. If the dog being locked onto is not panicking or in danger for his life, waiting out the situation may be least dangerous to the humans and other dogs. Unfortunately if the victim is either panicking or in serious condition, action must be taken. Using food to bribe the dog into letting go may work or prying the dog's mouth open, preferably by using a stick, might. In extreme cases twisting the collar to cut off the aggressor's breathing may be necessary. (Donaldson 33) A very effective technique is spraying pepper spray in the eyes and nose of the aggressor. Be prepared for the 'blow back' that will catch not only you but the other dog and any bystander within a few feet.

If one or both dogs are free, never reach in and grab for the dogs collars. This will most likely cause one or both dogs to bite a human. Instead insert something solid between the two dogs. A baby gate, board or even a high jump board may break the dogs' attention from each other. Then taking a hold of the collar or herding the dogs apart may work. If nothing is available to put in between the dogs, each person should grab the dogs' tails or upper part of the rear legs and pull the dogs away.
